Pathways Behavioral Health Services Community Health Needs Assessment 2018 Update

Executive Summary

Under the leadership of Pathways Behavioral Health Services, a community health needs assessment update of Dyer, Gibson, Hardeman, Haywood, Henderson, Lake, Madison, and Obion Counties in, Tennessee was conducted. This was completed in fulfillment of the requirements of the Patient Protection and Affordable Care Act Pub.L. No.111-148, 124 Stat. 119, enacted March 23, 2010. The community health needs assessment update process was a blending of Pathways Behavioral Health Services Advisory Board top health priorities and implementation strategies, and secondary data on the actual extent of particular mental health and substance use issues.

The mission of the Community Health Needs Assessment is to evaluate and improve the health status and wellbeing of the residents in the service area of Pathways Behavioral Health Services with an emphasis on preventive measures.

The first stage of the Update process involved gathering secondary data from multiple sources including the Tennessee Department of Mental Health and Substance Abuse Services;

Tennessee Behavioral Health County Data Book 2014; Robert Wood Johnson Foundation and University of Wisconsin; Anxiety and Depression Association of America; Tennessee Department of Health; and National Institute on Aging. The second step in the Community Health Needs Assessment Update process consisted of reviewing priorities and implementation strategies developed by the Pathways Behavioral Health Services Advisory Board.

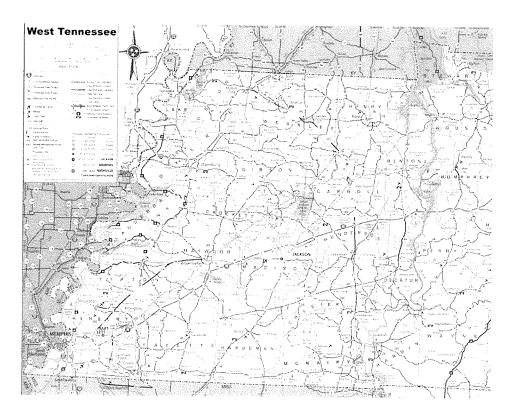

The Pathways Behavioral Health Services Advisory Board identified six priority issues:

- 1. Chronic Mental Health
- 2. Depression
- 3. Domestic Violence/Anger Management

- 4. Co-Occurring Mental Health and Substance Abuse
- 5. Alcohol, Drug, and Prescription Drug Abuse with an emphasis on the Opioid Crisis
- 6. Suicide

Several goals, objectives, and implementation strategies were identified to address these health issues that emphasize screenings, education and collaboration with other community agencies with the purpose of easing the burden of health disparity for the West Tennessee communities Pathways Behavioral Health Services serves.

September 2018

In fulfillment of the requirements of the Patient Protection and Affordable Care Act Pub.L. No.111-148, 124 Stat. 119, enacted March 23, 2010.

Introduction

Under the leadership of Pathways Behavioral Health Services, a community health needs assessment update of Dyer, Gibson, Hardeman, Haywood, Henderson, Lake, Madison, and Obion Counties in, Tennessee was conducted. This was completed in fulfillment of the requirements of the Patient Protection and Affordable Care Act Pub.L. No.111-148, 124 Stat. 119, enacted March 23, 2010; and Department of the Treasury Internal Revenue Service 26 CFR Parts 1, 53, and 62 Additional Requirements for Charitable Hospitals; Community Health Needs Assessments for Charitable Hospitals; Requirements of a Section 4959 Excise Tax Return and Time for Filing the Return.

The community health needs assessment update process was a blending of Pathways Behavioral Health Services Advisory Board top health priorities and implementation strategies, and secondary data on the actual extent of particular health issues.

Description of the Hospital and Community

Owned by the Jackson-Madison County General Hospital District, Pathways Behavioral Health
Services is a community mental health center serving the needs of residents in seven counties.
Pathways has a history of service to the Madison County area and is the product of one purchase and one merger. Pathways Behavioral Health Services has its origins with the Jackson Counseling Center and the Northwest Counseling Center, both of which opened in 1968. In 1990 the Jackson-Madison
County General Hospital District purchased the Jackson Counseling Center and the name was changed to the West Tennessee Behavioral Center. In 1995 the Northwest Counseling Center, whose corporate offices were located in Martin, Tennessee, merged with the West Tennessee Behavioral
Center. The new behavioral health organization, owned by the Jackson-Madison County General
Hospital District, was renamed to Pathways of Tennessee and finally Pathways Behavioral Health
Services. The corporate offices of Pathways are located on 238 Summar Drive in Jackson.

Pathways Behavioral Health Services is a public, not-for-profit affiliate of West Tennessee Healthcare and is accredited by The Joint Commission. Pathways provides a wide range of prevention and residential services for children and adults throughout the region including individual, group, and family outpatient counseling, alcohol and drug counseling, psychological examinations, early intervention programs and various educational programming.

Pathways Behavioral Health Services primarily serves a seven county area in rural West Tennessee.

Table 1 contains overview data for these counties (Source: Tennessee Department of Economic and Community Development, 2018).

Table 1: Service area data by county

County	Population	Poverty	Caucasian	African	Other	Per Capita	Population >
	(2017)			American		Income	Age 65
Dyer	37,463	18.6%	82.4%	13.5%	4.1%	\$38,195	16.0%
Gibson	49,111	18.7%	78.5%	18.3%	3.2%	\$36,898	17.7%
Haywood	17,573	21.0%	46.0%	50.1%	3.9%	\$30,274	16.3%
Henderson	27,751	20.7%	89.1%	7.9%	5.3%	\$33,476	16.7%
Lake	7,468	29.2%	68.4%	28.7%	5.1%	\$23,894	15.1%
Madison	97,643	19.4%	59.6%	37.4%	3.0%	\$40,101	15.0%
Obion	30,385	21.1%	85.7%	10.2%	7.9%	\$36,729	18.8%

In addition, these counties have a wide range of industries such as advanced manufacturing, healthcare, social assistance, retail trade, transportation and warehousing, education services, wholesale, professional and technical services, real estate, rental, and leasing services.

The area has a number of post-secondary education opportunities: Dyersburg State Community College, Jackson State Community College, Union University (a Southern Baptist Liberal Arts University), Lane College (a Historical Black College), and The University of Memphis Lambuth Campus, Tennessee Technology Centers, and West Tennessee Business College.

Description of the Community Health Needs Assessment Update Process

The mission of the Community Health Needs Assessment is to evaluate and improve the mental health status and wellbeing of the residents of a nine county area in rural West Tennessee with an emphasis on preventive measures.

The first stage of the Update process involved gathering secondary data from multiple sources including the Tennessee Department of Health, County Health Rankings and Roadmaps, Tennessee Department of Economic & Community Development, Behavioral Health County and Region Services Data Book, NIBRS, TN PRISM, and the National Institute of Mental Health. This data is presented in **Appendix A**. The second step in the Community Health Needs Assessment Update process consisted of reviewing priorities and implementation strategies developed by the Pathways Advisory Board.

Pathways Behavioral Health Services Advisory Board

Pathways is an affiliate of West Tennessee Healthcare and the Pathways Advisory Board is composed of community members who represent diverse interests of West Tennessee. The Advisory Board meets on a quarterly basis to determine priorities and implement strategies to address the mental health priorities of the counties served. They went through a structured process to select six priorities for improving health outcomes:

- 1. Chronic Mental Health
- 2. Depression
- 3. Domestic Violence/Anger Management
- 4. Co-Occurring Mental Health & Substance Abuse
- 5. Alcohol, Drug, and Prescription Drug Abuse (emphasis on the Opioid Crisis)
- 6. Suicide

The priorities are selected for a period of 2 - 3 years with the last priority selection occurring in 2016. The Pathways Advisory Board reviews progress toward these six priorities on a quarterly basis.

Implementation Strategies Chronic Mental Health and Depression

Therapy or Counseling

Individual, couple, family, and group counseling by mental health professionals is available.

Bridges

Building Recovery and Individual Dreams and Goals through Education and Support is a six-week self-help program that provides education and support to mental health consumers. The group meets on Tuesdays from 12:30-2 p.m.

Wellness Recovery Action Plan (WRAP)

WRAP will help identify wellness tools that benefit you and how to use those wellness tools when experiencing physical and emotional symptoms. Group is scheduled to meet once a month from 8:30 a.m.-2 p.m. in Jackson, TN.

Case Management

Provided in Dyer, Gibson, Hardeman, Haywood, Henderson, Lake, Madison, and Obion counties, the purpose of Case Management is to assist the client and/or their family in accessing clinical treatment, housing, education, employment, financial, medical, and other support services deemed necessary for successful community living.

Case Management is provided based on a strengths perspective. Assessments are done in order to qualify clients for service. Services are provided within the enhanced benefit package of the TennCare Partners Program.

Medication Management

Psychopharmacological services (medication management) are provided to clients when symptoms prompt psychiatric medication that will alleviate symptoms, avert chronicity, and/or prevent relapse. This service begins with an initial evaluation, which includes a mental status examination.

Based upon these findings, a diagnosis is formulated and a treatment plan is developed. Typically follow-up occurs at a decreasing frequency as stabilization of symptoms occurs and care is available on an as-needed basis.

Referrals for this service are generated by physicians and clinical staff performing assessments. The Medication Management Clinics are available Dyer, Gibson, Hardeman, Haywood, Henderson, Lake, Madison, and Obion counties.

Peer Support Services

Peer Support Centers have various activities that they focus on and include:

Recovery Education: Trained Certified Peer Recovery Specialists lead evidence-based classes, covering such topics and curricula as the Wellness Recovery Action Plan, Illness Management and Recovery, the Chronic Disease Self-Management Program, and the BRIDGES psychoeducation course. Other topics include stress management, anger management, and grief counseling.

Support Groups: Each Peer Support Center offers peer support groups to help people find the emotional support they need to help them in their recovery. This support is provided by people who can relate to what they are going through. Trained Certified Peer Recovery Specialists provide positive role models of peers in recovery. Volunteerism: Each Peer Support Center participates in volunteer activities, such as visiting residents of a nursing home, sorting food at a food bank, or picking up trash in the neighborhood. These activities provide opportunities for members to reap the benefits that come from giving to others and staying connected with the community.

Social Activities: Peer Support Centers provide socialization opportunities that address the isolation felt by many people who live with mental illness. Members enjoy going to local community events, such as art fairs, city clean-up days, or holiday festivals; playing games together, such as charades, cards, or kickball; and even going out for lunch from time to time.

Peer support is a service of peer-run programs where people who live with mental illness or a co-occurring disorder come together to learn about recovery, find support from their peers, make friends, and socialize. These services are available in Dyer, Henderson and Madison counties. We have consumers trained as Peer Support Specialists who may be able to assist you in dealing with problems outside your formal therapy at the Center.

Health Link Program

The Health Link Program provides a mechanism for coordinating care between physical health services and behavioral health services. By bringing physical and behavioral needs together, individuals are better able to overcome barriers that keep them from reaching their full potential

Emergency Services

Mental health professionals are available to provide crisis intervention services twenty-four hours per day, seven days per week through a Crisis Line for people in psychiatric emergencies.

Outpatient Treatment

Outpatient counseling services are the delivery of direct, preventive, assessment, and therapeutic intervention services to individuals whose growth, adjustment, or functioning is impaired or at risk of impairment. These services may be delivered in individual, group, conjoint/marital, and/or family counseling. Outpatient counseling covers a variety of areas. Referrals for these services may come from anyone in the community who feels assistance is needed. Pathways' Outpatient Counseling services are provided in these counties: Dyer, Gibson, Hardeman, Haywood, Henderson, Lake, Madison, and Obion.

Inpatient Psychiatric Care

Pathways Psychiatric Inpatient Facility treats patients with a wide range of psychiatric and substance abuse disorders, or a combination of both. All admissions to Pathways Inpatient Services are on a voluntary basis. Patients will receive a comprehensive psychiatric evaluation and treatment as well as 24-hour nursing care and ongoing medical, behavioral, and nutrition therapy.

Patients participate in a wide variety of individual, group, and family counseling programs. Group programs form the cornerstone of therapy at Pathways. They provide an opportunity for patients to learn about themselves by hearing from other patients. They learn new skills, provide and receive support, and learn more about their diseases and available treatments.

Coordination with primary care physicians, mental health or substance abuse providers, social service agencies, and patients' families helps ensure a smooth transition to the next appropriate level of treatment encouraging re-integration into the community.

Crisis Stabilization Unit

The Crisis Stabilization Unit (CSU) provides 24-hour, seven-day per week, short-term stabilization services for individuals with mental health and substance abuse issues. This program serves people in 18 counties including: Dyer, Gibson, Hardeman, Haywood, Henderson, Lake, Madison, and Obion.

Located at 238 Summar Avenue, the CSU provides assessment, triage, medication management, and group and individual therapy as well as an appointment for clients to work with a wellness recovery consumer specialist. The CSU offers this intensive 24-hour mental health treatment in a less restrictive setting compared to a psychiatric hospital or other treatment resource.

The CSU is structured to stabilize individuals experiencing mental health and substance abuse issues and strengthen their own coping skills while allowing them to remain in the community close to their essential support system.

A main goal of the CSU is to divert clients, when clinically appropriate, from psychiatric inpatient hospitalizations and unnecessary incarcerations stemming from their behavioral health conditions. The staff at Pathways is trained to provide the best care possible to residents of West Tennessee.

Pathways Behavioral Health Services operates the first CSU in West Tennessee.

Mobile Crisis Team

Crisis services are provided through state funding for these counties: Dyer, Gibson, Hardeman, Haywood, Henderson, Lake, Madison, and Obion.

The primary goal of crisis services is to respond as early and as quickly as possible to a serious mental health crisis in order to facilitate appropriate and safe resolution. Crisis services are performed by mental healthcare providers who respond to mental health emergencies at sites throughout the community including residences, hospital emergency departments, public places, etc. The service is available 24 hours-a-day, seven days-per-week by calling 1-800-372-0693.

Domestic Violence/Anger Management

Outpatient Treatment

Outpatient counseling services are the delivery of direct, preventive, assessment, and therapeutic intervention services to individuals whose growth, adjustment, or functioning is impaired or at risk of impairment. These services may be delivered in individual, group, conjoint/marital, and/or family counseling. Outpatient counseling covers a variety of areas. Referrals for these services may come from anyone in the community who feels assistance is needed.

To schedule an appointment, call 1-800-587-3854. Pathways' Outpatient Counseling services are provided in these counties: Dyer, Gibson, Hardeman, Haywood, Henderson, Lake, Madison, and Obion.

Anger Management Group

For people who experience problems with their anger offered Thursday 2-3:30 p.m. in the Pathways Group Room.

Co-Occurring Mental Health & Substance Abuse

Inpatient Psychiatric Care

Pathways Psychiatric Inpatient Facility treats patients with a wide range of psychiatric and substance abuse disorders, or a combination of both. All admissions to Pathways Inpatient Services are on a voluntary basis. Patients will receive a comprehensive psychiatric evaluation and treatment as well as 24-hour nursing care and ongoing medical, behavioral, and nutrition therapy.

Patients participate in a wide variety of individual, group, and family counseling programs. Group programs form the cornerstone of therapy at Pathways. They provide an opportunity for patients to learn about themselves by hearing from other patients. They learn new skills, provide and receive support, and learn more about their diseases and available treatments.

Coordination with primary care physicians, mental health or substance abuse providers, social service agencies, and patients' families helps ensure a smooth transition to the next appropriate level of treatment encouraging re-integration into the community.

Outpatient Treatment

Outpatient counseling services are the delivery of direct, preventive, assessment, and therapeutic intervention services to individuals whose growth, adjustment, or functioning is impaired or at risk of impairment. These services may be delivered in individual, group, conjoint/marital, and/or family counseling. Outpatient counseling covers a variety of areas. Referrals for these services may come from anyone in the community who feels assistance is needed.

Pathways' Outpatient Counseling services are provided in these counties: Dyer, Gibson, Hardeman, Haywood, Henderson, Lake, Madison, and Obion.

Medication Management

Psychopharmacological services (medication management) are provided to clients when symptoms prompt psychiatric medication that will alleviate symptoms, avert chronicity, and/or prevent relapse. This service begins with an initial evaluation, which includes a mental status examination.

Based upon these findings, a diagnosis is formulated and a treatment plan is developed. Typically follow-up occurs at a decreasing frequency as stabilization of symptoms occurs and care is available on an as-needed basis.

Referrals for this service are generated by physicians and clinical staff performing assessments. The Medication Management Clinics are available in Dyer, Gibson, Hardeman, Haywood, Henderson, Lake, Madison, and Obion counties.

Alcohol Abuse, Drug Abuse, Prescription Drug Abuse

Inpatient Detoxification Residential

Pathways Behavioral Health Services offers assistance for those wishing to live beyond substance abuse. Our goal is to help people abstain from dependence upon legal or illegal drugs and/or alcohol. Our services include inpatient and outpatient programs as well as co-occurring treatment.

Intensive Outpatient Alcohol and Drug Program

Intensive Outpatient Alcohol and Drug Program is a five-week program offered in Jackson. They meet three days per week for three hours per day at the Pathways facility on Summar Drive. Alcohol and drug abuse assessments may be completed in Dyer, Gibson, Hardeman, Haywood, Henderson, Lake, Madison, and Obion counties for admittance into the IOP. IOP services are individual, family, and group counseling for clients whose substance abuse problems are of relatively short duration and who have experienced only mild to moderate impairment in family and social relationships, mental condition, employment, education, or ability to refrain from illegal activity. The goal of IOP is to provide the clients along with their family education, support, and treatment for abstinence of alcohol and drug abuse.

Referrals for this program may come from anyone in the community who feels assistance is needed. Assessments will determine if this program is the appropriate treatment needed. Pathways provides substance abuse treatment services to pregnant women. They receive preference for admission.

Aftercare services are group programs for clients in Madison County who have completed a substance abuse rehabilitation program. Aftercare may also be appropriate treatment for a client who participated in a rehabilitation program in the past and was able to maintain sobriety for an extended period of time before experiencing a brief relapse.

The goals of Aftercare are to maintain and strengthen the gains achieved during therapy. Clients attend Aftercare at least once per month and may be scheduled as frequently as needed.

Intensive Outpatient Program (IOP) Alcohol and Drug Group

The group meets Monday, Tuesday, and Wednesday from 9 a.m.-12 p.m., and 4-7 p.m. Meetings are in the Pathways Group Room. For co-occurring treatment of mental health/substance abuse disorders, education about addiction, and identifying relapse triggers. Contact Jim Jones at 731-541-8297 for more information.

Relapse Prevention Treatment Group for Substance Abuse

The group meets Mondays from 7-8:30 p.m. in Jackson, TN. The group is for clients who have a primary diagnosis of substance abuse disorder.

Treatment for Adolescents

Breakthrough Program

Intensive on-going treatment program for adolescents struggling with substance abuse problems; ages 13-18. The group meets every Monday, Tuesday & Thursday from 3-6 p.m. at 238 Summar Drive in Jackson, TN. Please contact Carolyn Hulsey at 731-541-8284 for more information. The adolescent will be required to do one additional session each week. This will be set based on adolescent and staff schedule.

Breakthrough Community Based - Alcohol and Drug focused groups in the surrounding counties usually in the school or organized location.

Adolescent Intensive Outpatient Program

Serve youth age 13-18

- Recreational activities such as basketball, outings, board games
- Interactive Journaling tools along with educational videos:
 - Journals help the kids look at their own thoughts and actions, as well as educate them about the addiction process.
 - o Issues covered by the journals include:
 - Abuse and addiction
 - 12-step programs
 - Anger and feelings
 - Living with others
 - My values
- Group learning dynamics

Children and Youth Homeless Outreach

Children and Youth Homeless Outreach Program is designed to provide services for homeless families.

Goals:

- To identify children and youth who may have serious emotional disturbance (SED) or who may be at risk of SED.
- To assist the parent in securing needed mental health services for their children.
- To link the parents with other services needed to keep the family healthy, strong, and intact.
- To establish a positive working relationship with area shelters, churches, schools, and services agencies; by disseminating information related to available mental health services.

Children under age 18 are eligible for the homeless outreach program. We target the homeless child with SED or at risk of SED, but may address the family as a unit.

New Beginnings Children and Adolescents Intensive Outpatient Program (IOP)

IOP is a structured, therapeutic program designed to assist children and teens with carefully selected interventions to address emotional needs, social needs, and inappropriate coping skills.

IOP Interventions will assist children and teens in using positive coping skills and providing appropriate channels to express feelings. The therapeutic approach relies heavily upon a group treatment model. Individual and family treatment will be a focus.

IOP serves:

- Children and adolescents who exhibit significant impairment in social, family, or school functioning due to unresolved emotional issues.
- Children between the ages of six and 17.
- Families of these children through a weekly, multi-family support group.

Before enrollment, each child is screened to determine his or her individual needs. A child must have at least one parent or primary caretaker present during the initial intake. The program duration is approximately six weeks and the group meets three times per week.

Suicide

Pathways is active in the Tennessee Suicide Prevention Network and the National Suicide Prevention Lifeline number is located prominently on the Pathways website. Pathways also has their own 24 hour Crisis Hotline 1-800-372-0693, a 24 hour Walk-In Crisis Triage Center in Jackson, and the Connections to Care Program that targets clients seen in crisis who are suicidal to ensure they have services while waiting for other outpatient services to begin.

Conclusion

Under the leadership of Pathways Behavioral Health Services, a community health needs assessment update of Dyer, Gibson, Hardeman, Haywood, Henderson, Lake, Madison, and Obion Counties in, Tennessee was presented to the West Tennessee Healthcare Quality Council on October 2, 2018. The document was approved for submission to the West Tennessee Healthcare Board of Trustees. A presentation was made to the Board of Trustees on October 30, 2018, and the Pathways Behavioral Health Services Community Health Needs Assessment was approved on this date. The Assessment will be updated in three years as stipulated in the Patient Protection and Affordable Care Act Pub.L. No.111-148, 124 Stat. 119, enacted March 23, 2010.

Pathways Behavioral Health Services

Health Issue Prevalence Data September 2018

Alcohol Abuse

- * Approximately 5.8 million people (About 15 percent) ages 12-20 are binge drinkers.
- * Approximately 1.7 million people (about 4.3 percent) ages 12-20 are heavy drinkers.
- * 40.1 percent of college students age 18-22 engage in binge drinking (5+ drinks).
- * 14.4 % of college students age 18-22 engage in heavy drinking (5+ drinks 5 times).
- * 1,825 college students died from unintentional alcohol-related injuries.
- * 97,000 students report experiencing alcohol-related sexual assault or date rape.
- * 48.2 percent of cirrhosis deaths are alcohol-related.
- * 1 in 3 liver transplants related to alcohol use.

Depression * Major depressive disorder affects 14.8 million American adults or 6.7 percent of the U.S. population age 18 and older. * People with depression are four times more likely to develop a heart attack. Median age of onset is 32. * Depression often co-occurs with other illnesses and medical conditions. About six million people are affected by late life depression, but only about 10 percent ever receive treatment. * Women experience depression at twice the rate of men, regardless of racial, ethnic background or economic status. * Major depressive disorder is the leading cause of disability in the U.S. for ages 15 to 44. * Depression costs U.S. businesses \$70 billion in medical expenses, lost productivity, and other expenses. * Depression is the cause of 2/3 of suicides in the U.S. Source: Depression and Bipolar Support Alliance. Depression Statistics. **Domestic Violence** * 1 in 4 women will experience domestic violence during her lifetime. Domestic violence is more likely to occur between 6pm and 6am. More than 60 percent of domestic violence incidents happen at home. Domestic violence is the third leading cause of homelessness among families. Women ages 20 to 24 are at greatest risk of becoming victims of domestic violence. More than 4 million women experience physical assault and rape by their partners. 1 in 3 female homicide victims are murdered by their current or former partner. Domestic violence victims face many mental health and physical health issues, including depression, sleep deprivation, anxiety, heart disease, other chronic conditions. *Most domestic violence incidents are never reports. Source: SafeHorizon. Domestic Violence Statistics and Facts. **Eating Disorders** * Almost 50 percent of individuals with eating disorders meet the criteria for depression. *Up to 24 million people of all ages and genders suffer from an eating disorder. * The mortality rate associated with anorexia nervosa is 12 times higher than the death rate associated with all causes of death for females 15-24 years old. * An estimated 10-15 percent of individuals with anorexia or bulimia are male. * Women are much more likely than men to develop an eating disorder. About 50 percent of women who have had anorexia develop bulimia or bulimia patterns.

	PATHWAYS ADVISORY BOARD MEETING	Date of Meeting: April 10, 2018
Present:		
	Tyreece Miller, Mickie Whitaker, Daryl Hubbard, Angie Lowery, Ryan Porter, Pam Henson, Tammy Wright, Debbie Elsfelder, Dawn Harris	Date of Next Meeting: July 2018
Absent:	Keli Gooch, Cindy Burden, Paula Beard, Kim Parker, Dr. Lisa Piercev	
Chairman:	Tyreece Miller	
Topic/Issue		Responsible Party/Follow-up
Call To Order	Tyreece called the meeting to order.	
Approval of Minutes	Ryan Porter approved the minutes from the last meeting and Angie Lowery seconded.	Information Only
Old Business:	None	
New Business:		
COMMUNITY HEALTH NEEDS ASSESSMENT UPDATE	Dawn Harris, Business Development, came to review and update our Community Health Needs Assessment. We last completed an update in 2015. Board members reviewed priorities and implementation strategies from 3 years ago. Opioid Addiction was added as #2 of Priorities and Dementia was removed. Removed "Coordinates safe, affordable housing with existing providers," "Tennessee strategy for suicide prevention," and "Address dementia through current programming and geropsych providers in the service area."	
PEOPLE		
Board Members	Pam presented Angle Lowery with a plaque thanking her for her years of service on the Pathways' Advisory Board. Mickie Whitaker nominated Dale Brittain as a possible replacement. Board agreed and Mickie will ask Dale if she is interested.	Information Only
Employee information	Pam reported that the Lexington staff won the 2018 Red Hot Photo contest! Other staff celebrations include: Kim Parker won the WTH President's Award and Pat Taylor, LCSW won the Youth Town Giraffe Hero Award. We continue to have success with the Case Manager Bonus Plan that began last July and with the Outpatient Therapist Incentive Plan. In	Information Only

QUALITY / SAFETY Reviewed Policy & Procedure activity for the 1st quarter of 2018. A motion was made by Mickie Whitaker to approve the report and was seconded by Daryl Hubbard. See attached Information Only
QUALITY / SAFETY

Pam reviewed the Catch Us at Our Best card received during the quarter, positive comments noted on the Outpatient Customer Satisfaction surveys and positive comments received by staff.	Information Only
Pam reviewed many Community Service events that Pathways' staff were involved in during the quarter. See individual slides for specific information.	
Pam handed out the Financial results for February 2018. For the month Pathways had a profit from operations of \$144,812 compared to a budgeted profit of \$132,830. Pathways has a year-to-date profit from operations of \$384,210 vs a budgeted profit from operations of \$438,531. We are currently working on the FY 19 budget and should have it ready for Board members to review prior to the July 10th meeting.	Information Only
Pam reported that we have an LCSW working 1 day / week at PrimeCare in Selmer. We have utilized money received from the Department of Mental Health to start a program we call "Connections to Care." This program works with high risk clients following a crisis to ensure their safety until appropriate services are initiated. We have purchased 19 telehealth units to deploy throughout the region to be able to provide services to clients addicted to opiates wherever they are. We are beginning an adult Mental Health Intensive Outpatient Program in Jackson this month.	Information Only
